

# PROBLEM-FREE CAMPUS

Your problems may affect more people than you think. If you want to solve your problem or even create public opinion about it, check out our new project!

## 1 • GO TO WEBSITE

To get started, head to our website. This step represents your first move in sharing the issues and concerns you have.

## 2 • WRITE YOUR ISSUE

Use your words to express your concerns. In this step, you can become a part of the community by putting your thoughts and worries into writing.

## 3 • COLLABORATION

It's time for collaboration! Share your thoughts with other students, engage in discussions, and work together to come up with solutions.

## 4 • THINK REFLECTIVELY

Deeply reflective is crucial. By understanding the root of the problems and thinking deeply, you can find better solutions.

## 5 • WAIT PATIENTLY

Be patient. The processes of collaboration and problem-solving can take time. Stay patient and check your platform regularly while waiting for results.
