our favorite cartoons

cartoons' techniques

- stop motion
- rotoscoping
- cell 2d cartoons
- 3d cartoons

stop motion

Objects are photographed repeatedly one after the other.

• **Wallace and Gromit**

Chicken Run
•

rotoscoping

Scenes are shot and drawn frame by frame to produce realistic actions.

**Snow White
and the Seven
Dwarfs**

**The Lord of
The Rings**

cell 2D cartoons

Characters are hand-drawn on clear sheets and placed over painted backgrounds.

The Simpsons

Tom and Jerry

3D cartoons

It is done completely in a digital environment in a very realistic way.

Shrek

Toy Story

effects on children

Cartoons affect children in many ways both positively and negatively.

Social Skills

Cultural

Creativity

Education

Imagination

Aggression

Short Attention Spans

Unrealistic Expectations

positive effects

Social Effect: Many cartoons teach about friendship and empathy.

Creativity Effect: Cartoons improve their creativity.

Educational Effect: Many educational cartoons teach basic skills, like counting, colors, animals, etc.

negative effects

Aggression: Some cartoons can cause aggressive behavior in children.

Unrealistic Expectations: Children may expect unrealistic things from life.

Short Attention Spans: Episodes that end quickly cause children to lose focus quickly.

effects on adults

Cartoons also affect adults in many ways, both positively and negatively.
